

Quick Reference Guide

Axtra[®] XB

Application	A feed enzyme system specifically developed for use in monogastric diets based on mixed grains (e.g. wheat, barley, rye, triticale, oats, corn) and vegetable protein meals.								
Economic benefits	<ul style="list-style-type: none"> • Lower feed costs • More uniform poultry and pigs • Flexible dose rate to maximise value according to feed ingredients • Proven value in antibiotic growth promoter free nutrition • Contributing to food safety • Improved environment 								
Recommendations for use	<p>Poultry diets</p> <ul style="list-style-type: none"> • Add Axtra XB to the standard feed formulation to improve bird growth, egg production and feed conversion. • Reformulation - for reduced feed costs and maintained bird growth, egg production and feed conversion. <p>Appropriate matrix values for poultry are available from your Danisco Animal Nutrition representative.</p> <p>Piglets and grower/finisher pig diets</p> <ul style="list-style-type: none"> • Add Axtra XB to the standard feed formulation to improve pig growth and feed conversion. • Reformulation - for reduced feed costs and maintained pig growth and feed conversion. <p>Appropriate matrix values for pigs are available from your Danisco Animal Nutrition representative.</p>								
Inclusion rate	<p>Axtra XB 201 Recommended usage rate 0.1 kg/tonne (0.01%) of finished feed.</p> <p>Axtra XB 201 L Recommended usage rate 0.1 kg/tonne (0.01%) of finished feed.</p> <p>EU approved doses</p> <table> <tr> <td>Broilers</td><td>0.05 - 0.2 kg/tonne</td></tr> <tr> <td>Turkeys and layers</td><td>0.1 - 0.2 kg/tonne</td></tr> <tr> <td>Minor poultry species</td><td>0.05 or 0.1 - 0.2 kg/tonne</td></tr> <tr> <td>Piglets and grower-finisher pigs</td><td>0.05 - 0.2 kg/tonne</td></tr> </table>	Broilers	0.05 - 0.2 kg/tonne	Turkeys and layers	0.1 - 0.2 kg/tonne	Minor poultry species	0.05 or 0.1 - 0.2 kg/tonne	Piglets and grower-finisher pigs	0.05 - 0.2 kg/tonne
Broilers	0.05 - 0.2 kg/tonne								
Turkeys and layers	0.1 - 0.2 kg/tonne								
Minor poultry species	0.05 or 0.1 - 0.2 kg/tonne								
Piglets and grower-finisher pigs	0.05 - 0.2 kg/tonne

Storage stability, in-feed and premix stability	<p>Axtra XB 201 12 months when stored in original packaging at < 25°C (< 77°F). Store in dry conditions. 3 months in-feed at < 25°C (< 77°F). 6 months when included in a vitamin/mineral premix and stored at < 25°C (< 77°F).</p> <p>Axtra XB 201 L 12 months when stored in original packaging at < 25°C (< 77°F). Do not freeze. 3 months in-feed at < 25°C (< 77°F).</p>
Processing stability	<p>Axtra XB 201 For optimum bio-efficacy, do not exceed conditioning and pelleting temperatures of 90°C (194°F).</p>
Packaging	<p>Axtra XB 201 Packed in 25kg multi-wall polyethylene lined paper bags, or 1000kg bulk (tote) bags.</p> <p>Axtra XB 201 L Packed in containers of 200kg and 1000kg.</p>
Related services	<p>Enzyme in-feed laboratory analysis - confirms that Axtra XB has been accurately included in the feed for maximum profit.</p>
